Appendixes		
	<i>Appendix A: Identification of COVID-19 Hazards</i>	12
	<i>Appendix B: COVID-19 Inspections</i>	13
	<i>Appendix C: Investigating COVID-19 Cases</i>	14
	<i>Appendix D: COVID-19 Training Roster</i>	16

1. Authority and Responsibility

Candis Murawski, or the current Head of School, has overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all managers and supervisors are responsible for implementing and maintaining the CPP in their assigned work areas and for ensuring employees receive answers to questions about the program in a language they understand.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment.

2. Identification and Evaluation of COVID-19 Hazards

We will implement the following in our workplace:

- Conduct workplace-specific evaluations using the Appendix A: Identification of COVID-19 Hazards form.
- Evaluate employees' potential workplace exposures to all persons at, or who may enter, our workplace.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the Appendix B: COVID-19 Inspections form as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.
- Continue to update safety protocols for schools, as needed per CDC and Sacramento County Health Department guidelines.

Employee Participation

Employees and their authorized employees' representatives are encouraged to participate in the identification and evaluation of COVID-19 hazards by: Continuously communicating with the Folsom Preps Administration team. Read reports, attend seminars, and speak with other local schools, sharing ideas for safety of staff, children and families pertaining to the latest updates and trends for Covid-19.

Employee Screening

We screen our employees by: Daily health screenings are done on all staff members as they enter the school. Temperature checks with a non-contact thermometer and hand washing is required upon entering. All staff must wear a face covering while in the school. Folsom Prep has a staff schedule for Covid testing. All employees must be tested during their scheduled time. If a staff member shows any signs or symptoms, they are immediately advised to see their doctor.

3. Correction of COVID-19 Hazards

Unsafe or unhealthy work conditions, practices or procedures will be documented on the **Appendix B: COVID-19 Inspections** form, and corrected in a timely manner based on the severity of the hazards, as follows:

- The severity of the hazard will be assessed and correction time frames assigned, accordingly.
- Individuals are identified as being responsible for timely correction.
- Follow-up measures are taken to ensure timely correction.

4. Control of COVID-19 Hazards

Physical Distancing

Where possible, we ensure at least six feet of physical distancing at all times in our workplace by:

- Eliminating the need for workers to be in the workplace – e.g., telework or other remote work arrangements.
- Reducing the number of persons in an area at one time, including visitors.
- Visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel.
- Staggered arrival, departure, work, and break times.
- Adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees.
- Staggered lunch and recess times for all classes.
- Separate playground equipment for each cohort.
- Limit of 2 students per lunch table.

Individuals will be kept as far apart as possible when there are situations where six feet of physical distancing cannot be achieved.

Face Coverings

We provide clean, undamaged face coverings and ensure they are properly worn by employees over the nose and mouth when indoors, and when outdoors and less than six feet away from another person, including non-employees, and where required by orders from the California Department of Public Health (CDPH) or local health department. New, unused disposable face coverings are available at the front desk for all employees to use as needed. All staff members must have a face covering. If a staff member is not wearing one upon entering the school they will be provided with one before heading to their class.

The following are exceptions to the use of face coverings in our workplace:

- When an employee is alone in a room.
- While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
- Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Alternatives will be considered on a case-by-case basis.
- Specific tasks that cannot feasibly be performed with a face covering, where employees will be kept at least six feet apart.

Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19.

Engineering Controls

We implement the following measures for situations where we cannot maintain at least six feet between individuals:

- Staff/students must keep masks on while inside the building, as well as when outside.
- Keep HVAC fans in “ON” position to maximize fresh air..

We maximize, to the extent feasible, the quantity of outside air for our buildings with mechanical or natural ventilation systems by:

- Folsom Prep keeps the HVAC fans in the “on” position to maximize the fresh air flow into the classrooms.
- Vents are properly maintained and adjusted.
- Filters are changed periodically per the schedule.

Cleaning and Disinfecting

We implement the following cleaning and disinfection measures for frequently touched surfaces:

- An electrostatic sprayer - emist EPI 360 is used in every classroom daily.
- Classroom desktops/countertops are cleaned several times throughout the day,
- Door handles are cleaned several times throughout the day.
- Handwashing or sanitizing is required during every transition.
- Drinking fountain is disinfected after every use.
- Outside tables are cleaned after every use.
- Playground equipment is disinfected per sanitation schedule.

Should we have a COVID-19 case in our workplace, we will implement the following procedures:

In the event of a positive COVID-19 case in the classroom, Folsom Prep’s janitorial staff will deeply clean and sanitize each infected area. The classroom students will transition to on-line classes and the classrooms will remain unused for at least 10 days before students can resume in class.

Shared Tools, Equipment and Personal Protective Equipment (PPE)

PPE must not be shared, e.g., gloves, goggles and face shields.

Items that employees come in regular physical contact with, such as phones, headsets, desks, keyboards, writing materials, instruments and tools must also not be shared, to the extent feasible. Where there must be sharing, the items will be disinfected between uses by

All students will have their own supplies available to them. Any shared supplies will be sanitized after usage.

Phones are disinfected daily or after each use, if using someone else's phone.

New and used pen buckets are used at the front desk. Used pens are disinfected daily.

Sharing of vehicles will be minimized to the extent feasible, and high-touch points (for example, steering wheel, door handles, seat belt buckles, armrests, shifter, etc.) will be disinfected between users.

Hand Sanitizing

In order to implement effective hand sanitizing procedures, we:

- Evaluating hand washing facilities.
- Determining the need for additional facilities.

- Encouraging and allowing time for employee handwashing.
- Providing employees with an effective hand sanitizer and prohibiting hand sanitizers that contain methanol (i.e. methyl alcohol).
- Encouraging employees to wash their hands for at least 20 seconds each time.
- Hand washing is done between every transition.
- Hand washing must be done upon arrival to the school.
-

PPE Used to Control Employees' Exposure to COVID-19

We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed.

When it comes to respiratory protection, we evaluate the need in accordance with CCR Title 8 section 5144 when the physical distancing requirements are not feasible or maintained.

5. Investigating and Responding to COVID-19 Cases

This will be accomplished by using the ***Appendix C: Investigating COVID-19 Cases*** form.

Employees who had potential COVID-19 exposure in our workplace will be:

- Offered COVID-19 testing at no cost during their working hours.
- Folsom Prep has given the staff several free testing sites available for staff to be tested.
- The information on benefits described in Training and Instruction, and Exclusion of COVID-19 Cases, below, will be provided to them.

6. System of Communicating

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- Who employees should report COVID-19 symptoms and possible hazards to, and how.
- If an employee exhibits any covid-19 symptoms, they should immediately inform the Head of School.
- That employees can report symptoms and hazards without fear of reprisal.
- Our procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.
- Where testing is not required, how employees can access COVID-19 testing
- Folsom Prep has given all of the staff members a list of free COVID-19 testing sites. In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test. If a staff member has been in direct contact with a case, Folsom Prep will make arrangements for their class, and send the staff member for testing. The safety of our staff and students is of utmost importance. The staff member will have to quarantine for at least 7-10 days. If the staff member tests negative and does not show any symptoms, they will be able to return after their quarantine time ends.

- [If you are required to provide testing because of an employee exposure, have a plan for how this will be accomplished at no cost to the employee during working hours, including when the testing is in response to CCR Title 8 section 3205.1, Multiple COVID-19 Infections and COVID-19 Outbreaks, as well as section 3205.2, Major COVID-19 Outbreaks. It is recommended that the plan be developed in advance for large or high-risk workplaces.]
- Information about COVID-19 hazards employees (including other employers and individuals in contact with our workplace) may be exposed to, what is being done to control those hazards, and our COVID-19 policies and procedures.
- If a staff member or student tests positive for COVID-19, the administration team will gather all pertinent information about the case and send an email out to all people who may have been exposed. Then, a report of all individuals exposed will be made and faxed into the Sacramento County Health Department. Arrangements will be made for the staff member and/or students to transition to virtual learning. All areas will then be deeply cleaned and sanitized.

7. Training and Instruction

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws.
- The fact that:
 - COVID-19 is an infectious disease that can be spread through the air.
 - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
 - An infectious person may have no symptoms.
- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.
- Any email updates from the Sacramento County Health Department are forwarded to staff members to keep them informed of the latest news from the state.

Appendix D: COVID-19 Training Roster will be used to document this training.

8. Exclusion of COVID-19 Cases from Work

Where we have a COVID-19 case in our workplace, we will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work requirements are met.
- Excluding employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.
- Continuing and maintaining an employee's earnings, seniority, and all other employee rights and benefits whenever we've demonstrated that the COVID-19 exposure is work related. This will be accomplished by
- Employees are able to continue work virtually during their quarantine time. Or they can opt to use employer-provided sick leave benefits.
- Providing employees at the time of exclusion with information on available benefits.

9. Reporting, Recordkeeping, and Access

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or in connection with any employment.
- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in accordance with CCR Title 8 section 3203(b).
- Make our written COVID-19 Prevention Program available at the workplace to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.
- Use the **Appendix C: Investigating COVID-19 Cases** form to keep a record of and track all COVID-19 cases. The information will be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

10. Return-to-Work Criteria

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
 - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
 - COVID-19 symptoms have improved.
 - At least 10 days have passed since COVID-19 symptoms first appeared.

- COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
- A negative COVID-19 test will not be required for an employee to return to work.
- If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.

11. Multiple COVID-19 Infections and COVID-19 Outbreaks

This section applies if the workplace is identified by a local health department as the location of a COVID-19 outbreak, or there are three or more COVID-19 cases in your workplace within a 14-day period.

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 Testing

- We will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees' working hours.
- COVID-19 testing consists of the following:
 - All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.
 - After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
 - We will provide additional testing when deemed necessary by Cal/OSHA.

Exclusion of COVID-19 Cases

We will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return-to-Work Criteria** requirements, and local health officer orders if applicable.

Investigation of Workplace COVID-19 Illness

We will immediately investigate and determine possible workplace-related factors that contributed to the COVID-19 outbreak in accordance with our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 Investigation, Review and Hazard Correction

In addition to our CPP Identification and Evaluation of COVID-19 Hazards and Correction of COVID-19 Hazards, we will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19.

The investigation and review will be documented and include:

- Investigation of new or unabated COVID-19 hazards including:
 - Our leave policies and practices and whether employees are discouraged from remaining home when sick.
 - Our COVID-19 testing policies.
 - Insufficient outdoor air.
 - Insufficient air filtration.
 - Lack of physical distancing.
- Updating the review:
 - Every thirty days that the outbreak continues.
 - In response to new information or to new or previously unrecognized COVID-19 hazards.
 - When otherwise necessary.
- Implementing changes to reduce the transmission of COVID-19 based on the investigation and review. We will consider:
 - Moving indoor tasks outdoors or having them performed remotely.
 - Increasing outdoor air supply when work is done indoors.
 - Improving air filtration.
 - Increasing physical distancing as much as possible.
 - Respiratory protection.

Notifications to the Local Health Department

- Immediately, but no longer than 48 hours after learning of three or more COVID-19 cases in our workplace, we will contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.
- We will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. We will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.

12. Major COVID-19 Outbreaks

This section applies should your workplace experience 20 or more COVID-19 cases within a 30-day period.

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 Testing

We will provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at our exposed workplace during the relevant 30-day

period(s) and who remain at the workplace. COVID-19 testing will be provided at no cost to employees during employees' working hours.

Exclusion of COVID-19 Cases

We will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return-to-Work Criteria**, and any relevant local health department orders.

Investigation of Workplace COVID-19 Illnesses

We will comply with the requirements of our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 Hazard Correction

In addition to the requirements of our CPP **Correction of COVID-19 Hazards**, we will take the following actions:

- In buildings or structures with mechanical ventilation, we will filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, we will use filters with the highest compatible filtering efficiency. We will also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and implement their use to the degree feasible.
- We will determine the need for a respiratory protection program or changes to an existing respiratory protection program under CCR Title 8 section 5144 to address COVID-19 hazards.
- We will evaluate whether to halt some or all operations at our workplace until COVID-19 hazards have been corrected
- Implement any other control measures deemed necessary by Cal/OSHA.

Notifications to the Local Health Department

We will comply with the requirements of our **Multiple COVID-19 Infections** and **COVID-19 Outbreaks-Notifications** to the Local Health Department.

13. COVID-19 Prevention in Employer-Provided Housing

N/A

14. COVID-19 Prevention in Employer-Provided Transportation to & from Work

N/A

Appendix A: Identification of COVID-19 Hazards

All persons, regardless of symptoms or negative COVID-19 test results, will be considered potentially infectious. Particular attention will be paid to areas where people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not. For example: meetings, entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.

Evaluation of potential workplace exposure will be to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. We will consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

Person(s) Conducting the Evaluation: _____

Date: _____

Name(s) of employee and authorized employee representative that participated:

Interaction, area, activity, work task, process, equipment, and material that potentially exposes employees to COVID-19 hazards	Places and times	Potential for COVID-19 exposures and employees affected, including members of the public and employees of other employers	Existing and/or additional COVID-19 prevention controls, including barriers, partitions and ventilation

Appendix B: COVID-19 Inspections

Person(s) Conducting the Inspection: _____

Date: _____

Name of Location Evaluated: _____

Exposure Controls	Status	Person Assigned to Correct	Date Corrected
Engineering			
Barriers/partitions			
Ventilation (amount of fresh air and filtration maximized)			
Additional room air filtration			
Administrative			
Physical distancing			
Surface cleaning and disinfection			
Hand washing facilities			
Disinfecting and hand sanitizing solutions being used according to manufacturer instructions			
PPE			
Face coverings			
Gloves			
Face shields/goggles			
Respiratory protection			

Appendix C: Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by us will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law.

All employees' medical records will also be kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

Person(s) Conducting the Investigation: _____

Name(s) of staff involved in the investigation:

_____	_____	_____
_____	_____	_____
_____	_____	_____

Date: _____

Employee Name: _____

Occupation: _____

Was COVID-19 test offered? Yes No

Date the case first had one or more COVID-19 symptoms: _____

Date and time the COVID-19 was last present in the workplace: _____

Date of the positive or negative test and/or diagnosis: _____

Information received regarding COVID-19 test results and onset of symptoms. Yes No

If yes, attach documentation.

Results of the evaluation of the COVID-19 case and all locations at the workplace that may have been visited by the COVID-19 case during the high-risk exposure period, and who may have been exposed (attach additional information):

Notice given (within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case) of the potential COVID-19 exposure to:

All employees who may have had COVID-19 exposure and their authorized representatives.	Date:	
	Names of employees that were notified:	

Independent contractors and other employers present at the workplace during the high-risk exposure period.	Date:	
	Names of employees that were notified:	

What were the workplace conditions that could have contributed to the risk of COVID-19 exposure?

What could be done to reduce exposure to COVID-19?

Was local health department notified? Yes No Date: _____
