

CAMP FOLSOM PREPARATORY CHOOSE YOUR PATH

JUNE 3RD - AUGUST 7TH

MINI-CAMPS - QUICK OVERVIEWS

ARTS & CRAFTS - Make a variety of arts and crafts projects that you can take home or give as gifts.

CHESS - Beginners and experienced players will learn, develop skills, and compete in mini-tournaments

COMPUTER CODING - By working with programs such as Scratch you will fall in love with computer coding!

ENGINEERING DESIGN - With the lens of an engineer, you will practice the design process, build and test a variety of engineering projects.

LEGO CAMP - Through using Legos in a variety of ways, you will be creative, challenged, and think differently!

MATH MANIA - Through a variety of learning strategies (online programs, games, competition), you will improve your computation and problem-solving skills.

READING EMPOWERMENT - Practice your reading skills in fun and engaging ways! Through games and small group activities, challenge yourself to build your vocabulary, grammar, comprehension, and ELA skills.

SPORTS CAMP - Build your athletic skills, develop your physical fitness, and enjoy organized sporting activities with your friends.

ENTERTAINMENT CAMP - Students will learn theory, technique and showmanship in a variety of performance arts including music, acting and dance.

GIRL'S CLUB - Girls will be making creations and having fun with our peers.

CONVERSATIONAL SPANISH - Students will learn conversational Spanish. Throughout the camp students will learn, in Spanish, their numbers, greetings, months, days, vocabulary and more aspects of this wonderful culture!

SCIENCE CLUB - It's time for discovery! Become a junior scientist this summer and embark on a number of science adventures.
